

Conservation Advisory Board Meeting Minutes March 15, 2012

Meeting began at 7:10 pm.

All who attended were Doug Nichols, Sandy Carnevale, Dr. Gregory, Lee Rockwood and Melanie Hamilton.

Excused – Ed Drabek.

- Rosier proposed land swamp – please see attached memo.
- Caulkins Used Auto – please see attached memo. Thank you to Ed Drabek for the tree suggestions.
- Willow Woods / Yovinne Subdivision – We don't have reason to believe hazardous materials were buried on this property. The minor hazardous materials that are currently visible on the surface look to be recent dumping, after the site has been closed. The Health Department would regularly inspect and test the site during years of operation. Doug has interviewed several local residents pertaining to any knowledge of any hazardous dumping. Lee is going to contact the Health Department to check records of any possible hazardous waste. Meet on Saturday, March 17, 2012 at Doug's.

No EAF's this month.

Meeting adjourned at 8:30 pm.

Next meeting is Thursday, April 19, 2012 at 7:00 pm.
