Traffic Safety concerns center on the ingress and egress of this facility. Although this location is regulated by a traffic signal under the jurisdiction the State Department of Transportation it would recommend the following:

1. That a Green Left Turn Arrow be installed for traffic entering this complex for Eastbound traffic driving into the city on Route 5. A stacking lane is presently designated @ this location.
2. That a signal trip be installed for vehicles leaving this facility if one does not presently exist.

Site Plan: Quest Diagnostics- No Adverse Comments
